Dino-Lite Pro AMK412-C200

Charging the Battery of C200

For the first time user, please charge the battery of C200 for more than 8 hours by connecting C200 to the adapter and then connect the adapter to the power outlet. The charging can also be performed by connecting the C200 to a computer with an USB cable.

Notice:

  The C200 may not function when the battery is empty, even the adapter is connected.

  To extend the batterys life, please unplug the adapter immediately when the charging status indicator LED is vanished.
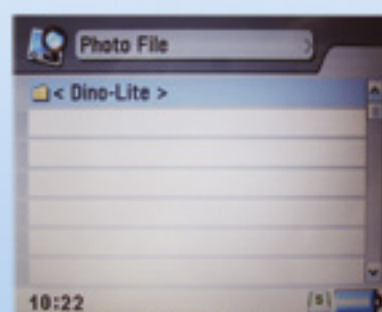

Starting up the AMK412-C200

1. Connect Dino-Lite AMK412 to A/V-Input of C200 before power on the C200.
